Mark Wandera

UI/UX Designer

EXPERIENCE

Digital Health, UI/UX Designer
Intellisoft Consulting Limited
August 2023 - Present

- Assisting in User Research: Help conduct user research, surveys, and interviews to gather insights into user needs, preferences and pain points. This data will be crucial in informing the design decisions.
- Visual Design: Contribute to the creation of visually appealing and user-friendly interfaces. Assist with developing design elements such as icons, graphics, and layout arrangements that align with the overall brand and design guidelines.
- Collaborate with developers, product managers, and other team members to understand project requirements and implement design solutions effectively.

Civil Engineering Intern
Losai Management
May 2022 - September 2022

- Designed Sewer networks using AutoCAD and Excel for the Eastern Nairobi Sewer Reticulation Project
- Carried out research, wrote and compiled detailed reports for the various areas of study
- Prepared Bills of Quantities for the various sewer networks using excel

Research Writer
UVOCORP
January 2019 - September 2020

- Consistently delivered high-quality content across various subjects and writing styles, meeting strict deadlines and adhering to client specifications.
- Conduct thorough research and synthesized information to produce engaging and well-structured articles, essays, and academic papers.
